1. The following is an examiner's statement of reasons for allowance: the amendment filed 11/10/2005 has overcome the prior art of record. The prior art of record fails to teach or fairly suggest a nonvolatile storage array organized in digits having non-uniform bases and a respective number of bits according to its base minus one as called for in claims 22-23, searching each of digits in order of significance until a least significant unprogrammed bit of one of the digits is found and programming the unprogrammed bit to carry out the increment command as called for in claim 24. Therefore, claims 22-30 and 33-41 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T. Lam whose telephone number is 571-272-1744. The examiner can normally be reached on Monday to Friday (7:30 am to 6:00pm).
